The Idea:

The vision for this special course I had for a long time - Only the implementation was a little more difficult - but in September 2018 the time was mature and set the course for this great event. After a long time of deliberation, many discussions, encounters and e-mail contact I found a nice youth hostel and a hall in the Röhn. I decided to look at it with the help of a good friend and make nails with my heads. Due to the favorable holiday (Thursday 03.10.2019) I can now offer you this special course, in which old and new friends meet, looking back together on the past years and walk together again for a week the path of Budos and together to look into the future. I am glad to see you all again on this course or get to know you, on nice training sessions, delicious food and good conversation.
